Professor Hilgard

of the University of California, in his annual report for the year 1890, writing about

VERONICA MINERAL WATER, says:

"As a purgative this water is very effective, and not painful in the least. It was a medicinal water used by the Indians. The composition of this water is very unusual, in fact, the composition is very remarkable, as it contains nearly every chemical element of value to the human system, whether to become a part of the membranous secretions, the blood or the bones."

Veronica.

Nature's own spring medicine, guaranteed to be bottled as it flows from Nature's laboratory.

Continuous Use.

By its continuous use impurities of the blood are removed, the stomach and digestive organs are strengthened, the liver acts freely, and the skin and kidneys are kept in good working order.

The name "Santa Barbara" is known the United States over as a widely patronized health resort by invalids as well as by those who feel the need of a change of air and diet. The Veronica Mineral Water is bottled at Santa Barbara in its natural state, and if taken as directed, the
